

QRG –iPhone iOS Update – October 2023

Process Steps:	Image:
1. On the iPhone Home screen, tap the Settings icon.	 The image shows the Settings icon, which is a grey gear with three teeth, set against a white background.
2. On the Settings screen, scroll down and tap General .	 The image is a screenshot of the iPhone Settings app. The title bar at the top says "Settings". Below the title bar, there is a list of settings categories: Notifications, Sounds & Haptics, Focus, Screen Time, General, Control Center, Display & Brightness, and Home Screen. The "General" option is highlighted with a red rectangular box.
3. On the General screen, tap Software Update .	 The image is a screenshot of the iPhone Settings app, specifically the "General" screen. The title bar at the top says "General". Below the title bar, there is a list of options: About, Software Update, AirDrop, and AirPlay & Handoff. The "Software Update" option is highlighted with a red rectangular box.

QRG –iPhone iOS Update – October 2023

Process Steps:

4. If you do not already have a current version installed, tap **Download and Install** and follow the prompts.

NOTE: If you already have the latest version, a message indicating **iOS is up to date** will be displayed, and there is no action to be taken.
